

CARLOS ANDRES MELO

ARCHITECT

PROFILE

Architect committed to the idea of "making a difference" in the professional field; passionate and with solid experience leading different kind of architectural approaches such as architectural design, project management and as general contractor with the highest standards.

Within the 16 of professional practice, I've achieved to success in projects in Spain, Japan, Argentina and Colombia in several areas, for instance, housing, corporative offices, military architecture, interior design, etc.

Working in O10 Arquitectura, my own firm, I've had the chance to implement a wide knowledge in the administrative field and driving projects on different scales to a great end.

With a special care on the details and result focused, my performance has let me create both, personal and professional, relationships with clients and coworkers, based on respect, transparency and integrity

Skills: Architectural Project development, architectural visualization, architectural design and conceptualization, Project management
